Frontline has been manufacturing quality campervans since 1987. Our Company prides itself on maintaining a very well respected name by constantly producing quality products with highly trained staff quality fittings and excellent after sales service. We have applied our experience and skills in manufacturing and design to offer very reliable and affordable Campervans.

The T5 Van has been a remarkable success as a campervan since its release in 2005. This success has been achieved by its car like comforts and safety to make it a great touring campervan. Volkswagen enhanced the T5 in April 2010 with some great improvements. A welcoming change has been made reducing engine and cabin noise, this makes the vehicle even more of a joy to drive. Subtle changes to the steering wheel, stereo and air conditioning have improved ergonomics and function. The vehicle is offered in two wheel drive and 4 motion all wheel drive. The engines are offered in a range of turbo and twin turbo diesel with power up to 132kW. They come in Manual or 7 speed DSG Automatic transmission. And for the first time the 4 motion is offered in the 7 speed DSG Auto as well.

One of the great features of the T5 is the swivel seat and walk through cabin. Once this seat is swiveled the cabin area is transformed into a clever use of additional space.

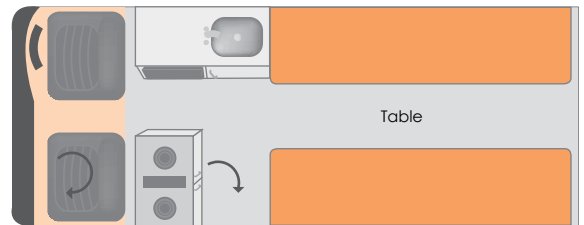

We believe our level elevating roof systems better suits the Australian climate providing more ventilation than the European tilt roof system. Plywood cupboards are cut and routed on our computer cutting and drilling machine to ensure perfect accuracy and efficiency every time. Other standard features include 12 volt lighting, 240 volt power points, auxiliary battery with auto charging, Water tank, Sink with electric pump, fridge freezer, plywood cupboards, table and swing out stove.

The Frontline T5 makes a great multi purpose Campervan providing great handling, ride, Safety and comfort for everyday use or touring this great country. The product is tried and tested and will provide a great mechanism to enjoy many great life experiences Australia wide.

Buy a Frontline today and enjoy life to it's full.

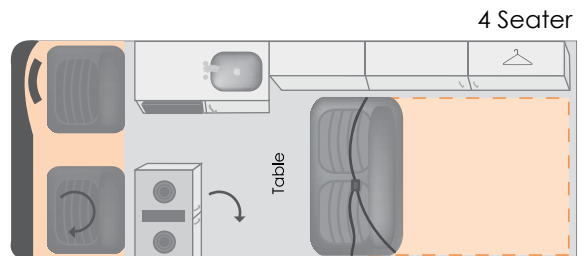

All frontline products are carefully manufactured at our Brookvale factory and come with full volume compliance plate approval for your safety.

### Freedom
