

The Melaleuca

Fiat Ducato

Horizon's compact model, yet thanks to an inspired layout, it is spacious on the inside with excellent cupboard space. With a length of just 5.9m, the Fiat based Melaleuca may be legally parked in a normal car space and it is a joy to manoeuvre.

The rear day bed quickly converts to either a king size bed or 2 singles and the storage is giant under the bedding. Both front seats swivel to add a second dining table.

Standard with all Horizon motor homes is automatic transmission with turbo diesel engine combining performance with ease and economy. At an on road price under \$100,000, the Melaleuca is unbeatable value for the buyer's dollars.
