NEW

Volkswagen Transporter

The arrival of the highly anticipated New Volkswagen Transporter at Frontline in 2025, saw the birth of Frontline Campervans 5th Generation of Transporter Campervans.

For anyone familiar with previous model VW Transporters, right away you'll be aware of the increased interior space of the New Transporter. The instantly obvious advantage of the increased space, is the larger bed. However by re-imagining the space it's also allowed Frontline the opportunity to incorporate the most sought after features of our Campers. Features including a large wardrobe with hanging space, increased bench space and an increased boot space with option of a pull out drawer due to the re-positioned auxiliary battery.

Making anyone's driving holiday experience more relaxing are the many sought after 'premium level' vehicle safety and driver assist features, now standard in this new vehicle.

Some of the noteworthy features include items such as LED head and tail lights, Adaptive Cruise control, 6 front and curtain airbags, Lane Assist and Lane Centring. There's also Traffic Sign Recognition, a Rear View camera in conjunction with lane change warning system, plus front and rear Parking Aid. All adding to the confidence you'll feel when driving your new Frontline Campervan.

Combining comfort and effortless are the many Audio and Comfort and Convenience inclusions of the Frontline Transporter Campervan, making your driving experience a pleasure. Features such as the driver and passenger cabin armrests, heated front seats, large 13" touch screen audio display and configurable 12" driver display. To make life easier when travelling the audio system includes wireless Apple CarPlay and Android Auto, as well as DAB and FM stereo, plus wireless phone charging for compatible phones.

This new generation Transporter brings with it an exciting leap forward with upgrades in passenger safety, passenger comfort, cabin and rear area space, plus easier accessibility.

Getting started is now even easier with keyless entry, push button start and electric handbrake. Once you are driving there is climate control heating/cooling, front and rear parking sensors and rain sensing wipers. You will also notice that the combination of the 390Nm / 125Kw Diesel engine, 4MOTION All-Wheel Drive system, 8 speed automatic transmission, Independent Rear Suspension and 6 driving modes, all make for a sure footed, smooth and effortless drive.

The all new cabinetry layout incorporates our state of the art battery and charging system, and also provides increased storage space that is always important when heading away on any holiday. The fully horizontal elevating pop-top roof, that Frontline is so well known for, that offers maximum ventilation for Australian conditions, is carried through to the new Frontline Transporter Campervan.

Volkswagen Transporter has been synonymous with campervanning for decades, now with this new Frontline Transporter, Australia's love of Campervanning is sure to continue for years to come.

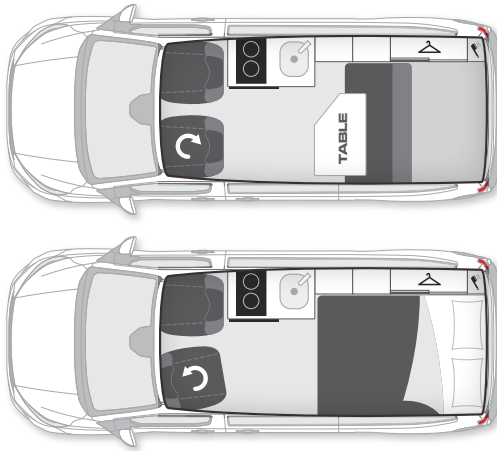

Frontline has manufactured over 4,000 quality campervans since 1987. We pride ourselves on maintaining a very well respected name by constantly producing quality products with highly trained staff, quality fittings and excellent after sales service.

Choose from five flexible smart campervan layouts to suit your camping style

Adventurer

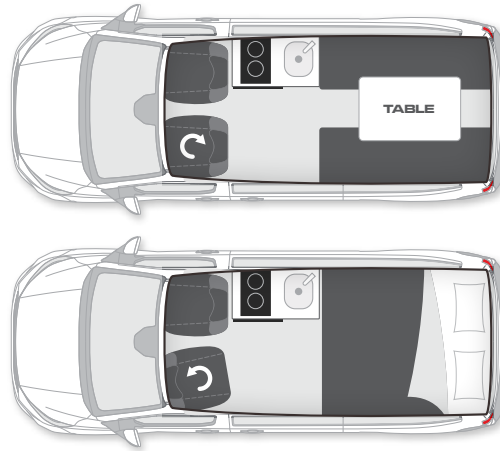

SEATS 4 

Versatile all-rounder that seats 4

Freedom

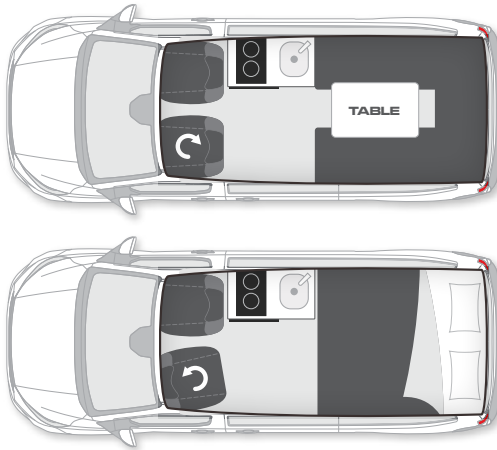

SEATS 2 

2 Large single beds

Avalon

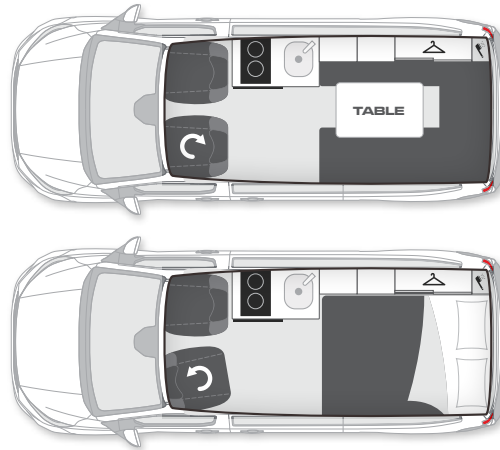

SEATS 2 

Large boot storage

Avalon 1

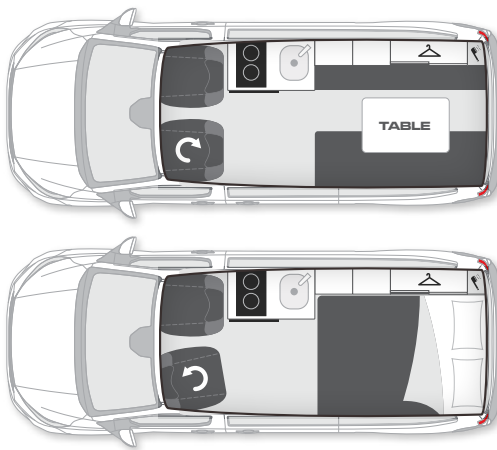

SEATS 2 

Flexible living area

Vacationer

SEATS 2 

Single bed converts to a large double

Ask the Frontline team which layout may suit your needs best

All Frontline Campervans can be optioned with an additional roof bed for sleeping 4. All conversions come with Frontline's full elevation pop-top roof system, this is better suited to the Australian climate with superior ventilation.

Standard conversion features include 12 volt lighting, 240 volt power points, long-stay auxiliary battery with auto charging, solar charging options, water tank for sink and hand-held shower with electric pump, fridge freezer, removable table and several different cooking options.

Opening flyscreen windows ensure you can always enjoy cooler fresh air. Removable zippered flyscreen panels can also be fitted as an option for the sliding door and rear tailgate.
